

Positioning Resources Ltd and Thales Partnership

Positioning Resources Ltd (UK) and Thales's™ navigation business (France) have signed a business partner agreement, under which the two companies will partner in the development and marketing of the MobileMapper CE and PocketGIS software. Under the agreement Positioning Resources will sell its field data capture solution integrated on the MobileMapper CE handheld GPS from Thales. This partnership enables the companies to work together to offer optimised compatibility between Thales GPS and Positioning Resources GIS software to Positioning Resources's™ customers.
