

RICS Geomatics Evening Lectures

RICS Geomatics (United Kingdom) will be continuing its series of evening lectures again this session. Each lecture is CPD relevant and may count towards your CPD/LLL quota as specified within regulations. All lectures are free and open to all (especially students). There is no need to pre-book. A large number of RICS Geomatics regional and international lectures, events and extensive downloads can also be found at the link below.

The evening lectures are traditionally held throughout the autumn and winter months and are open and free to all, members and non-members.

Although most lectures are held at RICS HQ Great George Street, a number are also held regionally but please check the location information within the programme. No prior booking is necessary.

This year's extensive series sees geomatics luminaries such as:

- Prof Paul Van Der Molen (of the globally renowned Dutch Cadastre) become the first international recipient of the coveted Michael Barrett award for land registration and law. Wednesday 13th December 2006.
- Dr David Williams, Director General of the British National Space Centre, Jan 2007
- Sir Martin Sweeting, The School of Civil Engineering's Annual Coates Lecture on 'Changing the Economics of space - Small Satellites and Galileo' - IESSG Feb 2007.
- Dr Marek Ziabert and Dr Jon Illiffe UCL - Vertical Offshore Reference Systems (VORF) - the next step change in land/marine integrated geodesy.
