

Sales and Support Mapsuite+; Chaos Systems

Sokkia BV (The Netherlands) has transferred all sales and support activities related to Mapsuite+ to Chaos Systems AB, the developer, in Sweden. The core business of Chaos AB is software development and the decision is made to be more beneficial for the current and future customer base. Sokkia will continue to promote Mapsuite+ with its complete total station line-up.

For the MapSuite end users nothing changes. The end user still will contact the local MapSuite+ distributor.
