

# 3001 and LandAir Join Operations

3001 LandAir (GA, USA) combines the sensors and production capabilities of 3001 Inc. with the aircraft and flight operations of LandAir Mapping Inc. Sensors include a Zeiss DMC digital aerial camera, two Leica ADS40 digital aerial cameras, a Leica RC30 aerial photographic camera, and two Leica ALS50 LIDAR sensors. The fleet consists of three Cessna 401 twin-engine aircraft, two Cessna 402 twin-engine aircraft, and one Learjet 23 aircraft. All aircrafts are equipped with airborne GPS and flight management systems.
