

3D Laser Mapping Appoints Australian Distributor

3D Laser Mapping (United Kingdom) has signed an exclusive agreement with Australia's largest distributor of surveying equipment.

The distributor agreement with C. R. Kennedy & Company Pty. Ltd., is the latest in a bid to boost international sales and market penetration and covers the sale, support and marketing of 3D Laser Mapping's internationally renowned SiteMonitor solution. SiteMonitor is 3D Laser Mapping's laser measurement system that integrates laser scanning hardware with easy to use software to automatically capture and analyse complex slope measurements and profiles.

C. R. Kennedy & Company Pty. Ltd is Australia's largest distributor of photographic, surveying surveillance, medial and digital audio equipment, with offices in all major Australian capital cities and Auckland, New Zealand.
