

Avenza Announces MAPublisher 6.2 for Illustrator

Avenza Systems Inc. (Canada) has announced the release of MAPublisher 6.2. MAPublisher 6.2 is the latest version of this mapmaking software used to produce high quality maps from GIS data ensures compatibility with the new Adobe Creative Suite 2 (CS2) that was released earlier this month. All earlier versions of MAPublisher are not compatible with Illustrator CS2.

In addition to being compatible with Adobe Illustrator CS2, CS and 10, MAPublisher 6.2 adds the ability to simultaneously export multiple Illustrator map layers to GIS data formats. Previous versions could only export single layers at a time.

MAPublisher 6.2 for Adobe Illustrator is a full product update that is free to all current MAPublisher Maintenance Program subscribers and replaces the current shipping version of MAPublisher 6.1 for all new customers. All other customers, including MAPublisher 6.x customers with expired maintenance, will be required to purchase this upgrade at the usual upgrade price.
