Carlson Survey 2009 Embedded AutoCAD

Carlson Software (KY, USA) has released Carlson Survey 2009 Embedded AutoCAD. This version has the AutoCAD OEM engine built-in, which is in addition to the Carlson Survey 2009 for AutoCAD and Carlson Survey 2009 for IntelliCAD options in the Carlson Survey 2009 product line.

-All versions of Carlson Survey 2009 feature more than 75 new and improved commands based on user input including:

-Area label overhaul with total control and overlap avoidance

-More Field-to-Finish coding methods and special codes

-Transparent COGO intersection commands

-SurvNET EDM calibration

-Lot Network building pad placement

-ESRI SHP file coordinate conversion, layer control, field selection, area filter

-Conversion of Mr. Sid images

-Export to Google Earth

Combined with Carlson SurvCE2.0, Carlson Survey 2009 offers seamless office and field operations for sharing data files, field-to-finish coding and COGO functions.

Carlson Survey 2009 Embedded AutoCAD is available now.
