

# CICES Becomes Licensed Member of the Engineering Council

The Chartered Institution of Civil Engineering Surveyors (CICES) and the Engineering Council are pleased to announce that CICES has received approval to become a Licensed Member of the Engineering Council and to assess its members for professional registration at the grades of Chartered Engineer and Incorporated Engineer. The institution previously held Professional Affiliate status.

[Engineering Council](#) CEO Alasdair Coates said: "The Engineering Council's vision is to maintain society's confidence and trust in the engineering profession. We achieve this through working with partners across the professional engineering community and are pleased to see CICES achieving those standards expected of a Licensed Member."

[CICES](#) president Chris Preston said: "Professional registration offers CICES members a chance to prove their competence at the highest level, whilst at the same time ensuring high standards are maintained for the societies we serve as infrastructure professionals. This is a milestone in the international recognition of the role civil engineering surveyors play within the engineering community."

Details of all currently licensed professional engineering institutions can be found on the Engineering Council's website.
