

Cloud GIS Perspective at Oil & Gas Pipeline Conference

Digital Map Products (DMP, USA) is taking part in the Geospatial Information & Technology Association's (GITA) upcoming 20th Annual GIS for Oil & Gas Pipeline conference in Houston, TX (USA). The company will be presenting a Technical Session at the conference on Wednesday, 26th October from 11:15 to 11:55 a.m. entitled 'The Cloud Revolution: Leveraging Cloud Computing for GIS Success'.

DMP CEO Jim Skurzynsk will discuss how cloud computing is transforming GIS and provide tips on how you can best capitalise on the next-generation of GIS technologies.

Conference attendees can also visit Digital Map Products at Booth #110 where company representatives will be sharing information and answering questions about DMP's geospatial data, mapping development platform, SaaS GIS applications, and the Technical Session.

The [20th Annual GIS for Oil & Pipeline conference](#) brings together geospatial professionals from leading oil and gas pipeline industry organisations and will take place from 24th to 26th October 2011.
