

# Commercial UAV Expo Europe Announces Early Backers

Diversified Communications, the organizer of [Commercial UAV Expo Europe](#), a new conference and exposition focused on drone integration for industrial use, have announced dozens of early supporters of the event, including individuals on the Advisory Board, supporting trade associations and sponsoring trade media. The inaugural edition will take place 20-22 June 2017 at the SQUARE Brussels Exhibition Centre in Brussels, Belgium. Diversified also organizes [Commercial UAV Expo Americas](#), the leading North American event for the commercial UAV market, and publishes [Commercial UAV News](#). Supporters include:

## **ADVISORY BOARD**

**Sebastian Babiarz, Head of Drone Business, Advanced Mobile Network Solutions**

*Nokia – Germany*

**Kasia Colombani, Senior Consultant**

*Drone Alliance Europe & RPP Group – Belgium*

**James Harrison, CEO & Co-Founder**

*Sky-Futures – United Kingdom*

**Dr. Oliver Heinrich, Attorney-at-Law and Found Partner**

*BHO Legal – Germany*

**Benjamin Hugonet, VP of European Sales**

*Airware – France*

**Julian Norton, Business Development Manager**

*Pix4d – Switzerland*

**Peter Slater, Aerial Solutions UAV Manager**

*Costain Group Plc – United Kingdom*

**Mark Vanlook, Chairman**

*EUKA – Belgium*

**Jürgen Verstaen, Co-Founder & Chief Business Development Officer**

*UniFly – Belgium*

**Flavien Viguier, R&D Manager**

*SNCF Railway – France*

**Jeremy Wigmore, CEO**

*Aerialtronics – The Netherlands*

“We’re thrilled by the response we’re getting to Commercial UAV Expo Europe. The list of supporters grows every day, as more and more people learn about this new event exclusively focused on commercial UAV integration for large enterprise, industrial users in Europe that is

organized by Diversified Communications,” said Lisa Murray, Event Director. “Commercial UAV Expo Europe is unique in that it is a pan-European event that will explore harmonization of standards, the intricacies of the regulatory landscape, and the commercial opportunities for drone business that will drive the market forward. Diversified Communications is known globally as a market leader in producing events and emedia in the technology sector. Many of the individuals, companies and media sponsors who have pledged their support know us from having had positive, successful results at other events we produce.”

“With Commercial UAV Expo Europe, Diversified Communications brings its winning formula to the rapidly growing European market.” In 2015, the company launched Commercial UAV Expo Americas in Las Vegas. The event’s exclusive focus on drone integration in seven distinct industrial markets proved extremely successful; the second edition, held in October 2016 in Las Vegas, had more than 1,700 attendees and an exhibition with 170 booths of airframes, components, sensors and services.

Registration for Commercial UAV Expo Europe will open in early March, 2017. Drone professionals interested in receiving information about attending the event are invited to fill out an [attendee inquiry form](#) here.

Companies interested in receiving information about exhibiting are invited to contact Katherine Dow at [kdow@divcom.com](mailto:kdow@divcom.com) or at +1.207.842.5497.
