

ESRI Summit 2008

The 2008 ESRI Survey & Engineering GIS Summit, to be held August 2nd -5th 2008, at the San Diego Convention Center in California, will help surveying, engineering, and geographic information system (GIS) professionals explore how GIS technology is building new opportunities for their businesses.

Attendees will hear from two keynote speakers during the Plenary Session including Colonel David Madden, commander of the Global Positioning Systems (GPS) Wing at the Space and Missile Systems Center, and Timothy McCormick, senior vice president at Dewberry's Hazard Engineering and Geospatial Services Group.

In addition, the Geographic and Land Information Society (GLIS) is sponsoring the Surveying and GIS Leadership Forum on Tuesday, August 4. GLIS will also hold the opening session for the conference's Surveying-Special Interest Group (S-SIG) meeting along with the Arizona Professional Land Surveyor and other organisations. Topics covered will include professional practice, GIS and surveying associations and collaboration, and developing a plan to support the surveying profession.

The summit will be held concurrently with the 2008 ESRI International User Conference (ESRI UC)
