

Free Online Training ER Mapper Image Compressor

Users of ER Mapper's new Image Compressor product can now take free multi-media lessons on the ER Mapper website.

The lessons are easy-to-follow and provide users a 'running start' to getting the most out of ER Mapper Image Compressor. People can use their own data - or the sample image data provided.

Current lessons available are:

- Introduction to ER Mapper Image Compressor
- Locating and opening files
- Viewing metadata
- Mosaicking images
- Colour balancing images
- Compressing to JPEG 2000
- Compressing to ECW
- Crop and export to GeoTIFF
- Defining clip regions
- Using the topo collar wizard
- Printing images

The lessons are presented by renowned ER Mapper Professional expert, Eric Augenstein of Earthstar Geographics.
