

Intergeo News Call

Intergeo 2009 will be taking place from 22nd to 24th September 2009 in Karlsruhe (Germany). As every year, GIM International is dedicating its October issue to the Intergeo. And each year too we offer companies the opportunity to publish a short outline of themselves and their latest products in advance of the event. Will your company be exhibiting, presenting new products or organising an event? If so, GIM International would like to hear about it!

We cordially invite you to inform us briefly (in about 100 words, including booth number and one full-colour, 300dpi, illustration, including caption) about your company's show plans, product launches, and initiatives. Contributing is free of charge.

Please send your contribution before Monday 3rd August 2009 to: Boukje Vreman, editorial manager at Reed Business - Geo, e-mail: bouk...@reedbusiness.nl.

We assure you that the requested information will not be released before 15th September 2009.

We look forward to your response and wish you success at Intergeo 2009.

Please also let me know when you would like to schedule a meeting to discuss your company's editorial possibilities in GIM International.

For information about advertising, please contact our account manager, Victor van Essen, e-mail: vict...@reedbusiness.nl.
