

# Intergeo Opens Exhibition Floor

Intergeo 2007, the congress trade fair for geodesy, geoinformation and land management, opened its doors for the 13th time today. For three days, 475 companies from 28 countries will be presenting their products and services on an area covering 25,000 square metres, providing a comprehensive overview of the technology available in the industry. Here are just a few photo's taken on the exhibition floor today.

(Trimble)

(Topcon)

(Sokkia)

(Topcon demonstration outside)

(Amberg Technologies)

(Geokosmos screen demonstration)

(Blom)

(Callidus)

(Pentax its new GNSS receiver: sneakpreview)

(Magellan)

(K2-Computer Softwareentwicklung)
