

International Symposium in Sofia

The symposium *Modern Technologies, Education and Professional Practice in Geodesy and Related Fields* will be held in Sofia from 03-04 November 2005.

The symposium is, amongst many others, organised by: International Federation of Surveyors (FIG) International Society of Photogrammetry and Remote Sensing (ISPRS), International Cartographic Association (ICA).

The symposium will focus on modern technologies like geodesy, photogrammetry, cartography, satellite technologies (sensor technologies), urban and rural planning, cadastre, GIS, and on education and professional practice. The symposium is accompanied by an exhibition of modern equipment, software, technologies, etc.
