

# Invitation to the Student Consortium Sessions: Youth Forum

The the new Student Consortium Board will be elected in the Small Hall on Sunday 17 July starting at 4:30 pm.

Contributions by young scientist cover all the main domains of photogrammetry, remote sensing and spatial scientists.

There will be two Youth Forum Best Paper Awards and two Youth Forum Best Poster Awards for the best papers presented at the ISPRS Youth Forum Sessions.

The main purpose of the Student Consortium is to link students, young researches and professionals in different countries and provide a platform for exchange of information, to

organize student specific events and other actions that integrate youth effectively into ISPRS.
