

Lidar Mapping Forum to New Orleans

The ILMF team has established the dates for ILMF 2011. It is to be held from 7th to 9th February 2011 at the Astor Crowne Plaza in New Orleans, USA. The eleventh edition of the Lidar event aims at professionals from around the world with one focused objective of sharing information on Lidar technology and mobile mapping applications.

ILMF 2011 will showcase more than fifty leading companies in this rapidly growing global market. Exhibitors include the Lidar and complementary sensor manufacturers, survey service companies, data processing, GIS and management specialists and the latest mobile mapping vehicles.

The exhibition is complemented by a three day Technical Conference, where speakers from the international Lidar community will be reporting on latest technology advances and recent projects, highlighting actual experiences and lessons learned. For delegates new to the Lidar community, or those wishing to learn how Lidar technology can deliver increased mapping knowledge at reduced cost, there is a full series of learning Workshops and demonstrations.
