

Multispectral Imaging Solutions at CANSEC

Teledyne DALSA will feature its state-of-the-art imaging components and sub-systems development capability for defence and security applications at CANSEC 2012. Hosted by the Canadian Association of Defense and Security Industries (CADSI), CANSEC 2012 will be held on 30 and 31 May at the CE Centre in Ottawa, Ontario.

Teledyne DALSA will feature its field-proven UV and X-ray imaging solutions in addition to its capability for manufacturing uncooled short-, mid- and long-wavelength [infrared cameras](#) based on a variety of technologies.

Teledyne DALSA is in Booth 513.
