

New Lidar Sensor for Airborne 1

Airborne 1 Corporation (CA, USA) has purchased its fourth Optech ALTM sensor and filled the position of CFO.

Airborne 1 has purchased a new Optech ALTM sensor to further expand the company's fleet of LiDAR systems. This sensor, in addition to the ones they already own from the same manufacturer, will allow the company to increase efficiency and continue to meet current and future demand for services.

Ted Lanes has been appointed as new CFO of the company. Todd Stennett. Lanes, a USC graduate, has ten years of CFO experience in both the private and public sector
