

New R-300NX Total Station from Pentax

A new version of the R-300NX Series Total Station is available as from April 2006. In the long range mode the measuring range is 270m using the non-prism function. The accuracy of reflectorless measurement in the 200 to 270m range is $\hat{A}\pm(7 + 10\text{ppm} \times D)\text{mm}$.
