

# New Topcon Partner Norway

Topcon Europe Positioning BV (The Netherlands) has signed a new machine control partner in the Norway. Norsecraft will take care of all machine control solutions and support for construction in Norway.

Norsecraft is managed by director Mr. Hans Ellingsen and has 23 employees at the moment. The company is established in 1980 and has now over 25 years of experience in machine installations and support.

Norsecraft is the former Leica dealer for machine control in Norway and pioneered in Leica machine control products. After a few years of exploring, Norsecraft decided to change for the Topcon line up.
