

New VP at Geo-3D

Geo-3D Inc. (Canada) has appointment Daniel Desgagne, Eng., to the position of vice president of the company responsible for, among other activities, the domestic and offshore sales function. This appointment is a continuation of a planned growth strategy. Mr. Desgagne will be working from Geo-3D's head office in Brossard, Quebec, Canada.

Mr. Desgagne brings with him extensive executive managerial experience in commercial activities such as sales and marketing, product development, business development and project management.

Daniel Desgagne has over 25 years of experience in the management of sales activities, with a significant portion of his career in the information technology industry. Many of those years have also been spent in key senior management and executive level positions for world-renowned companies in the financial, clothing, and consulting business sectors. He has implemented strategic initiatives within different organizations that have helped increase revenues and reduce costs, while attaining full operational efficiency by executing assertive business processes reengineering plans.
