

Optech to Unveil ALTM Sensor at INTERGEO

Optech Incorporated (Canada), a manufacturer of advanced lidar survey instruments, announced today that it will unveil a new ALTM sensor at INTERGEO 2008 in Bremen, Germany.

The result of direct input from lidar survey professionals, this highly innovative system represents a new era in lidar design and technology.

See this new sensor at the Optech stand #5.121 on 30th September, at 2 P.M.
