

Orbit GT Launches Mobile Mapping Publisher 11.0

Orbit GeoSpatial Technologies has announced the availability of Mobile Mapping Publisher version 11.0. The Publisher allows all mobile mapping data to be shared over the internet or on mobile devices, and to be integrated in any workflow using Orbitâ€™s SDK. This upgrade addresses many customer demands and is offered in a variety of configurations to fit all needs. Besides that, it also supports all mobile mapping data.

Orbit GT's engagement in neutral and worldwide support for mobile mapping content is brought to the next level, uplifting the standards for mobile mapping content exploitation, optimisation and sharing. Orbit Mobile Mapping is specialised in solutions for mobile mapping content management, feature extraction and content publishing.
