

# Photogrammetric Production Projects Contest

Racurs, Russia, is organising a contest among PHOTOMOD Lite users. PHOTOMOD Lite is a free software package which has all the features of PHOTOMOD digital photogrammetric system. There are two categories: 'Education with PHOTOMOD Lite' and 'Users' PHOTOMOD Lite Test Projects'.

PHOTOMOD Lite allows exploring wide-ranging possibilities of the PHOTOMOD system and performance of test projects with the user's data. PHOTOMOD Lite is an excellent solution for realisation of scientific and educational projects and can be used for training of engineers and students.

Prizes for the Education with PHOTOMOD Lite category are:

Main prize: PHOTOMOD full local license

Second prize: a free basic training course for one person

Third prize: a voucher for 50% discount on a basic training course for one person.

Prizes for the User's PHOTOMOD Lite Test Projects category are:

Main prize: PHOTOMOD full local license

Second prize: a voucher for 50% discount on PHOTOMOD full local license software package

Third prize: a free basic training course for one person.

Project descriptions must be submitted to Racurs before 15 August 2012. Materials may be sent by e-mail to [info@racurs.ru](mailto:info@racurs.ru). Please specify in the e-mail subject line 'Project contest'. More details are listed on the website below.
