

Programme Racurs Conference Announced

The organising committee of the 15th International Scientific and Technical Conference “From imagery to map: digital photogrammetry technologies”, also known as the Racurs Conference, has announced its preliminary programme. The highly topical conference program provides maximum opportunities for interaction and continuous networking between all participants. On the third day, master classes on DPW PHOTOMOD and roundtable discussions of hot topics will be presented. The conference will be held from 26-29 October 2015 in Yucatán, Mexico.

Thirty one reports are divided into eight sections: Common Cartographic Problems, Aerial Survey and Photogrammetry in Latin America, Aerial Survey and Equipment, DPW PHOTOMOD & practice experience, Russian RSD Satellites Systems, Foreign RSD

Satellites Systems, RSD using and processing, and UAS/UAV. The programme [can be downloaded here](#). To register for the conference [go here](#).
