

Seafloor Systems Expands Sales Support Services in Latin America

Seafloor Systems has announced the appointment of Mauro Romani as sales support engineer for the Latin American market. Mr Romani, who previously served as a geotechnical equipment specialist for Golder Associates based in Lima, Peru, brings his customer service, sales engineering and technical support experience into this new position, reporting to Josh Grava, vice president of sales. He will directly support dealers and customers in Latin America with sales and training as well as product demonstrations for the Seafloor Systems range of echosounders and remote and autonomous survey vehicles. Mr Romani will be based in Lima and can be contacted via telephone (+51 996790270) or email (mauro.romani@seafloorsystems.com).

Seafloor Systems is known for its turnkey singlebeam and multibeam hydrographic survey equipment and vehicles. For more information on Seafloor Systems' [turnkey hydrographic systems](#), call +1 530 677 1019 or email info@seafloorsystems.com.
