

# SuperGeo Partners with GeoViet Consulting

SuperGeo Technologies has appointed GeoViet Consulting, in Hanoi, Vietnam, as a new reseller. GeoViet Consulting will distribute SuperGIS series software. Being founded in 1996, GeoViet Consulting has been dedicated to the applications of geospatial technologies.

Through providing consultation services including geospatial information, climate changes and environmental studies, natural resources planning and GIS management projects, GeoViet Consulting integrates geospatial technologies and further improves environmental development and inter-disciplinary communication.

After evaluating SuperGIS software, GeoViet Consulting thinks that SuperGIS series products are full-functioned and reasonably-priced. What is more, the support from SuperGeo Technologies is always swift and comprehensive, thus playing an outstanding role in upgrading GeoViet Consulting's services of geographical information and resource schemes.

With the aim of improving interaction between various domains, GeoViet Consulting manages to promote SuperGIS series products and boost the advancement of geographical information along with knowledge industry in the entire Vietnam via launching GIS application projects, training and seminars.
