

# Tele Atlas Extends Relationship with Infotech

Infotech Enterprises Limited (India), has announced that it has signed a new multi-year contract with Tele Atlas to provide extensive map database and software development services. The agreement builds on a relationship that started in 1994 and reflects Tele Atlas' continued confidence in Infotech's abilities to deliver high-quality database and software services and solutions.

Under the renewed agreement, Infotech will continue to deploy several hundred data conversion specialists to work on various projects for Tele Atlas. The new contract is designed to help lay a solid foundation for a process-driven relationship and focus on database and engineering innovation.

Through the agreement, Infotech's highly-skilled professional database teams assist in the production of Tele Atlas' digital map database, entering in verified map data information gathered by Tele Atlas' global resource network, which includes data collected from Tele Atlas' global fleet of Mobile Mapping Vans.
