

Topcon Announces New Software Sales Manager

Topcon (CA, USA) has welcomed Keith Raymer to its corporate staff as Software Sales Manager for the Survey and GPS Division. Topcon is committed to bringing premier products with advanced features to its customers. This new position was created to expand the sales and distribution of software products specifically targeted to land surveying applications.

Raymer brings a wealth of experience to Topcon. He started his career in survey sales in 1972. Working for Sokkia Corporation for 26 years, he demonstrated his leadership skills by serving in many diverse management positions on both regional and national levels. These included National Technical Support Manager, National Sales Manager, and National Marketing Manager. His primary activities involved working to improve sales / distribution networks and develop new products.
