

UK Hydrographic Office Purchases CarbonArc PRO

The Carbon Project (MA, USA) has announced that the United Kingdom Hydrographic Office's Defence Development Group has purchased CarbonArc PRO for ArcGIS 9.2 to support its OGC development work.

By plugging into ArcGIS, CarbonArc PRO lets people use OGC services and data as an integral part of the GIS, including WMS, WFS, WFS-T, WCS, Filter Encoding (FE), Gazetteer, GML, GMLsf and Catalog Services (CS-W), as an integral part of the GIS.
