

# Vexcel VP Mapping and Photogrammetry

Vexcel Corporation (CO, USA) has announced that Dr William B. Gail, formerly director at Ball Aerospace, has joined Vexcel as vice-president of Mapping and Photogrammetric Solutions. He will lead the marketing and support for the UltraCam digital aerial camera and the UltraMap server. Bill Gail's remote sensing experience includes spaceborne and airborne sensor technologies, remote sensing policy, and business development for a wide range of projects. Before his career at Ball Aerospace he managed radar processing and adaptive systems projects at the Aerospace Corporation. Dr Gail received his PhD in Electrical Engineering from Stanford University, where he focused his research on the physics of the Earth's magnetosphere.
