

Worldwide Contributions for StreetMapper Conference

3D Laser Mapping, UK, and IGI, Germany, have announced the programme for the StreetMapper 2010 International User Conference. Co-hosted with the European Lidar Mapping Forum, the StreetMapper Conference will take place on the 2nd December 2010 in The Hague, Netherlands. Aimed at both existing and potential users of mobile mapping systems, the StreetMapper Conference will feature a range of presentations including keynotes and technical presentations from 3D Laser Mapping and IGI as well as user papers from around the world.

The conference will also provide the perfect opportunity for delegates to meet with laser scanning specialists and network with mobile mapping professionals.

For further information or to express an interest in attending the StreetMapper International User Conference please email to info@3dlasermapping.com or call +44 (0)870 442 9400. Attendance is strictly by invitation only and registration is essential.
